Jackson JANUARY Meeting

DATE	January 19, 2012
TOPIC	Window Films
SPONSOR	New BASIC MAPP Partner Solar Control of Jackson
LOCATION	Mississippi Museum of Art
TIME	11:30 a.m. - 1:00 p.m.
LUs	1.0 AIA HSW SD; 1 DCEC Credit and/or 1 GBCI CE Hour

PROGRAM OVERVIEW

This seminar introduces the use of window films as part of a daylighting strategy for architectural applications. You will gain an understanding of the basics of window film materials and applications: window film history, construction, the usage and care of films. The benefits of the various types of window films: energy savings, tenant comfort, glare and heat rejection, fading protection, building aesthetics, etc. Identify the value of window films for commercial, retail and residential building applications: maintaining views, increase security/safety, reduce HVAC loads and managing light.
